

ULSTER HISTORICAL FOUNDATION FLIPBOOK

The flipbook offers the potential for introducing more interactive content: eg we have included a couple of small features here – short welcome videos from the presenters and images can be clicked to take the user to a different website or specific book product.

Please note: the registrants do not download this file, rather they view it in the browser. We have provided it in two forms. Depending on the registrants' preferred device for browsing, they can view the flipbook as single pages (suitable for smaller devices such as smart phones and tablets) or as double-page spreads (as if you were looking at an actual book).
